ALUMINIUM SYSTEMS

# STAR90

The STAR90 window system exists in 3 insulating versions STAR90 - STAR90i - STAR90i+ and STAR90P. It stands out for its excellent thermal properties, making it particularly suitable for use in passive house projects. A passive house is a highly insulated house with ideal comfort in winter (warm) and in summer (cool). It has a high-quality thermal envelope that ensures low energy consumption.

The acoustic performance of the Star90 also contributes greatly to the increased comfort experience of the residents.
